Hi Bryan,

There is no data in the data folders in the Wolverine folder. These are folders ending with the word test. I am sending an e-mail shortly to you, Nuria, Kim, Mike, Erica, and Mario asking who needs access to the residents' data because I want to keep it restricted. Are these the only folders you could not access?

I could view all documents on the Sharepoint site. But could not actually open and view the sampling results. I clicked on "The PFAS" on the left and an access request popped up, so I clicked on requested access. I should have fully checked earlier, I just viewed the test data folder but did not actually try to open it. Sorry.

Hi All,

I am dropping off very shortly for an 11:00 A.M. National Drinking Water Call. I need to be on it because I raised an issue for discussion and I need to lead it.
